# Traveller ST

## Your ticket machine, which sets new standards - reliably and efficiently trend-setting

- Large 18.5“ or 32“ display
- Developed for the requirements of outdoor installations on railway stations and stops
- Increased vandalism protection due to design
- EAA compliant
- Considerably reduced power consumption compared to previous models
- Roof extension with lighting, optional extension with dynamic passenger information (up to 32“)
- A modular concept is service-friendly and therefore means low maintenance costs
- Combinable payment options: Payment with coins, banknotes as well as cashless and contactless payment possible
- Improved accessibility through optional integration of Braille, a hardware button, a microphone and a loudspeaker
